

10 Funny Penguins

Nastja Holtfreter

A fabulous and colourful picture board book specifically created for young children, '10 Funny Penguins' is a fun and interactive way to support different developmental milestones. It has been designed for children ages 0 to 3 to align with their developmental process. The colourful and lively illustrations within the book complement the storyline so your child can effortlessly follow along. It shows the fun adventures of ten penguins playing together. Counting and learning about the penguins on the pages throughout the story will support basic math skills while also developing concepts such as 'fast and slow' and 'happy and sad'. This cute story is written using short, simple and fun-rhyming sentences to keep your child's attention and asking to read it again and again! Have fun!

First Numbers

Carla Häfner

In the first few years of life, children will explore and uncover the world around them by using their sense of touch. By touching and feeling objects they discover, their awareness will be reinforced. First Numbers is an interactive, trace-along-the-tracks type board book designed to be fun, colourful and attractive to appeal to children from 0 to 3 years old. Children can run their fingers along tracks and trace the numbers and the different fun shapes they make, encouraging them to explore with their hands and fingertips. What a fun way to develop basic math skills!

First Words

Carla Häfner

In the first few years of life, children will explore and uncover the world around them by using their sense of touch. By touching and feeling objects they discover, their awareness will be reinforced. First Words is an interactive, trace-along-the-tracks type board book designed to be fun, colourful and attractive to appeal to children from 0 to 3 years old. Children can run their fingers along tracks and trace the different fun shapes they make, encouraging them to explore with their hands and fingertips. This process helps to expand the child's vocabulary and supports their language development. The enjoyable and endearing storyline has cute rhymes making it easier for children to remember and makes vocabulary learning more fun!

Good Night! Are You Awake?

Nastja Holtfreter

Good Night! Started with the question "Are you awake?". Sleep plays a vital role in child development with many studies showing that children who regularly get an adequate amount of sleep have improved attention, behaviour, learning, memory, and overall mental and physical health. In the first years after birth, the amount of time a child sleeps begins to decrease gradually.

Developing a healthy sleep pattern can be a challenging transition period for many families. This board book shows the sleeping habits of various animals from around the world in their own unique habitats and is intended to help create a healthy sleep routine. Each page of the book is designed to be interactive. When the child pulls the tab, the characters on the pages change to follow the story. This makes it easier for the child to pay attention and interact with the book while, at the same time, supporting their fine motor development skills. From the first page to the last page, this book will show your child the fun side of sleeping and make them excited to show you what good little sleepers then can be!

Lost? Found!

Nastja Holtfreter

Lost? Found! is a colourful and fun, interactive, high quality board book designed to help with the development of children between the ages of 0 and 3. The illustrations are drawn with lively colours and fun animal characters that follow the storyline.

Each page of the book is designed to be interactive. When the child pulls the tabs, the hidden animal characters on the pages are revealed. This makes it easier for your child to follow the storyline and interact with the book while, at the same time, supporting their fine motor development skills.

The durable, thick cover and pages make it simple for children in this age group to easily grasp and hold this board book using their own hands. Have fun playing and learning with your little one!
